

Renovation Update 31 May 2010

Dear TLFCP Member,

We are pleased to inform you that:

- we have appointed **Dynaforce Club**, the gym management arm of Dynaforce Pte Ltd, to manage the new Gym. Dynaforce Pte Ltd is the distributor of the **TechnoGym** fitness machines which the Gym will be equipped with. With over 18 years experience as a professional, full-service wellness centre contract management company, you can look forward to a facility with top-notch service and equipment!
- the owner of Thann Thailand, Tony Suppattranont, paid the site a visit recently together with Thann Singapore owner, Ray Chong, and he was very impressed with the location and the spa concept, so you just KNOW you'll be getting the coolest spa ever!
- the difficulties we have had with the logistics of bringing in the crane and steel beams to form the frame of the steel-and-glass Clubhouse have been ironed out and you can see the steel "skeleton" being put up in the photos below. The glass will quickly follow, and then the interior.

Do look out for our next progress update.

Warmest regards,

The Management
